Keep in touch with P.U for their daily route plan & timing and move them in case of emergency.

Control Centre in HQ Seremban

Our Central Monitoring System (CMS) unit monitors Clients' premises more closely and accurately through GPS / GPRS devices and CCTV, and hourly calls to PU and security officers.

CMS unit also keeps in touch with security officers and PU and coordinate with operation department for hourly operations and site activities.

CMS responds immediately on suspicious activities or emergency and lodge complains accordingly to the concern departments e.g. Police, BOMBA, TNB, Hospital etc. and updates management and clients.

CMS works round the clock 24/7 and take immediate action if clocking is missed and/or upon noticing unprofessional behavior or activity of guards.

BUSINESS DEVELOPMENT UNIT

RISK ASSESSMENT AUDIT

- Identify and assess hazards, risks to people, property and the environment and implementing the necessary control measures.
- Give organization a more effective way to reduce risks and the potential for loss.

MONTHLY AUDIT PROCESS

Effective and Creative Security Management

PATROLLING UNIT

Security patrol services have become popular in current times. This is because we live in environments that call for everybody to be vigilant and aware of their surroundings. This requires people to take their personal as well as property safety seriously.

1. Random, regular patrols in a marked patrolling vehicle can deter criminal activity.
2. Premise will be observed; not just watched.
3. To observed and report any suspicious persons, activity or incidents in the area.
4. It allows us to be able to work out whether the personnel are doing a proper job while making it possible to identify areas that need attention.
5. Prevents a situation where properties are not guarded properly.
