Objective

Objective

To establish as an upstream Oil & Gas Operator

- Strategically position the company to become an upstream operator by acquiring or partnering in oil and gas assets. Build internal capabilities in field development, production management, and regulatory compliance.

Expand Marine and Offshore Support Capabilities

- Develop and operate a fleet of offshore support vessels to provide integrated marine logistics solutions. Focus on operational efficiency, safety compliance, and client satisfaction to become a preferred marine service provider.

Achieve Vertical Integration

- Progressively integrate services across the upstream value chain—from equipment supply and marine logistics to drilling operations—creating synergies, reducing dependency on third parties, and improving overall project efficiency.

An offshore oil rig is visible in the distance on a blue ocean under a cloudy sky. The rig is a complex structure with multiple towers and platforms.

Mission & Vision

Vision

To become a leading integrated energy services provider in the oil and gas industry, recognized for operational excellence, technical expertise, and strategic asset ownership. The company aspires to evolve from a specialized service provider into a fully capable upstream operator, contributing to sustainable energy development while maintaining the highest standards of safety, innovation, and environmental responsibility.

Mission

Our mission is to deliver reliable, high-quality, and cost-effective solutions to the oil and gas industry through a progressive expansion of services and capabilities.
