

Srikandee Metalworks Sdn. Bhd

Custom Metal & Wood Industrial Concept Furniture, Manufactured in Malaysia

Srikandee Metalworks

From sketch to steel
— we make it real.

About our Company

Company Overview

Srikandee Metalworks Sdn Bhd is a Malaysian manufacturer of custom metal and wood industrial furniture, based in Puncak Alam, Selangor.

What began as Srikandee Resources in 2020 — growing to over 100,000 social media followers — has since scaled into a fully structured Sdn Bhd, built to serve both home and business customers with consistent quality and craftsmanship

Where we stand today

36+ customers served monthly

1k+ pieces delivered since day 1

100k+ followers, built organically

Our current operating area for B2C

Srikandee Metalworks

Production Capability

Process and Workflow

Every project runs through a structured Sales-Production-Installation (SPI) workflow — from initial consultation and design, through fabrication, to final on-site installation. This end-to-end process keeps quality consistent and turnaround predictable, whether it's a single custom piece or a bulk order.

Capacity and Scale

Our production model delivers 12 completed orders every week, supporting 36+ customers a month on a steady, predictable basis. Since 2020, we've served over 1,000 customers and fulfilled 60+ bulk orders — with a clear roadmap toward 60 customers a month as we scale further.

Materials & Finishing

Mild Steel — Renowned for its strength and ruggedness, steel forms the core of our industrial designs, offering unmatched durability and longevity in every piece.

Solid Wood — We complement the industrial look with rubberwood, adding warmth and a natural touch to our furniture — striking a balance between raw strength and organic beauty.

Powder Coating — Every piece is finished with powder coating, a protective and decorative layer that enhances durability, resists wear, rust, and corrosion, and keeps the finish looking sharp for years.

Srikandee Metalworks

Srikandee Metalworks is led by a hands-on team of four, combining deep craftsmanship with strong business fundamentals.

From welding and fabrication to sales, operations, and growth, every member brings a distinct skill set to the table — united by a shared commitment to quality, reliability, and building furniture that lasts. It's this close-knit, all-hands approach that lets Srikandee move fast, stay consistent, and deliver on every order, big or small.

Customer Reviews

High-quality products are just the beginning.

From first consultation to final installation, we focus on personalized service, craftsmanship, and making sure every client feels valued and supported.

Customer satisfaction, for us, is about the whole journey — and we take pride in earning our clients' trust every time.

Srikandee Metalworks

Our Projects

Custom Wardrobes & Storage

Sturdy steel framing meets warm wood accents in every custom wardrobe and storage unit we build — fabricated to fit the exact space, built to last, and finished with our signature industrial look.

Kitchen Cabinetry & Fit-Outs

From full kitchen builds to modular cabinetry, we bring the same steel-and-wood craftsmanship into functional kitchen spaces — durable, easy to maintain.
