FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

ABOUT COMPANY

Fire Infinity Engineering Services provides end-to-end fire protection solutions, covering the supply, installation, testing, commissioning, and maintenance of critical fire safety systems. Our scope includes fire alarm systems, CO₂ suppression systems, hydrant systems, hose reels, emergency lighting, and related safety equipment – ensuring that every component works seamlessly together to protect people, assets, and operations.

We work with a team of trained and certified professionals who bring hands-on experience to every project. From new system setups to urgent repairs, our approach is practical and results-driven – delivering solutions that are compliant, reliable, and tailored to the unique needs of each client.

Our service philosophy is simple: respond quickly, work precisely, and provide continuous support to keep systems operational with minimal disruption. We also offer preventive maintenance programs to reduce risks, prevent costly breakdowns, and maintain full readiness in the event of an emergency.

At Fire Infinity Engineering Services, we don't just supply equipment – we ensure that your entire fire protection system performs when it matters most.

Tagline: "Your Safety is Our Priority."

ABOUT COMPANY - HISTORY

Established in 2023, Fire Infinity Engineering Services was founded on over a decade of professional experience in the fire protection industry. The company was formed with a clear objective – to provide precise, efficient, and BOMBA-compliant fire protection solutions that meet the highest standards of safety and reliability.

Although a newly incorporated entity, the company's foundation is built on strong industry expertise. The founder possesses more than 10 years of operational experience, while each technician within the organisation has also accumulated over 10 years of hands-on field experience. This ensures that every project is executed with technical accuracy, strict regulatory compliance, and a strong commitment to quality workmanship.

Within the first year of operations, Fire Infinity Engineering Services successfully secured and delivered major projects involving fire system installation and comprehensive maintenance services, covering fire alarm systems, CO₂ suppression systems, hydrant and hose reel networks, as well as emergency lighting. All works were carried out in full compliance with BOMBA regulations and inspection requirements, enabling clients to maintain operational readiness and achieve timely approvals.

Today, the company continues to strengthen its capabilities, expanding into larger and more complex projects while upholding its core values of reliability, technical excellence, and client satisfaction.

COMPANY ADVANTAGES

Service advantages :

FREE CONSULTATION & SITE VISIT

We offer free professional consultation and on-site inspection to evaluate your fire safety needs—no hidden charges.

TRANSPARENT QUOTATION

Quotation is provided clearly based on actual findings during site visit. No unnecessary additions—only what's needed, and no hidden fees.

SKILLED & CERTIFIED TEAM

Our engineers and technicians are highly trained, certified, and experienced in handling all fire protection systems.

QUALITY WORK AT COMPETITIVE PRICING

We ensure quality workmanship using certified products and materials—at fair and competitive prices.

OBJECTIVE, VISION & MISSION

Fire Infinity Engineering Services (F.I.E.S) is a dynamic and progressive company specialising in the installation and maintenance of fire protection systems. We serve public, government, and private sector clients, delivering multidisciplinary expertise supported by the extensive experience of qualified local Bumiputera professionals. Our scope of services encompasses the complete lifecycle of fire protection systems, including the supply, installation, testing, commissioning, preventive maintenance, and rectification works for:

- Fire alarm systems
- CO₂ suppression systems
- Hydrant and hose reel systems
- Emergency and exit lighting systems
- Other associated fire safety equipment

Backed by a team with over a decade of industry experience, we ensure that all projects are executed to the highest technical standards, in strict adherence to BOMBA regulations and relevant safety codes. Our approach prioritises precision, reliability, and operational readiness, providing clients with confidence that their fire protection systems will perform effectively when required.

OBJECTIVE, VISION & MISSION

VISION

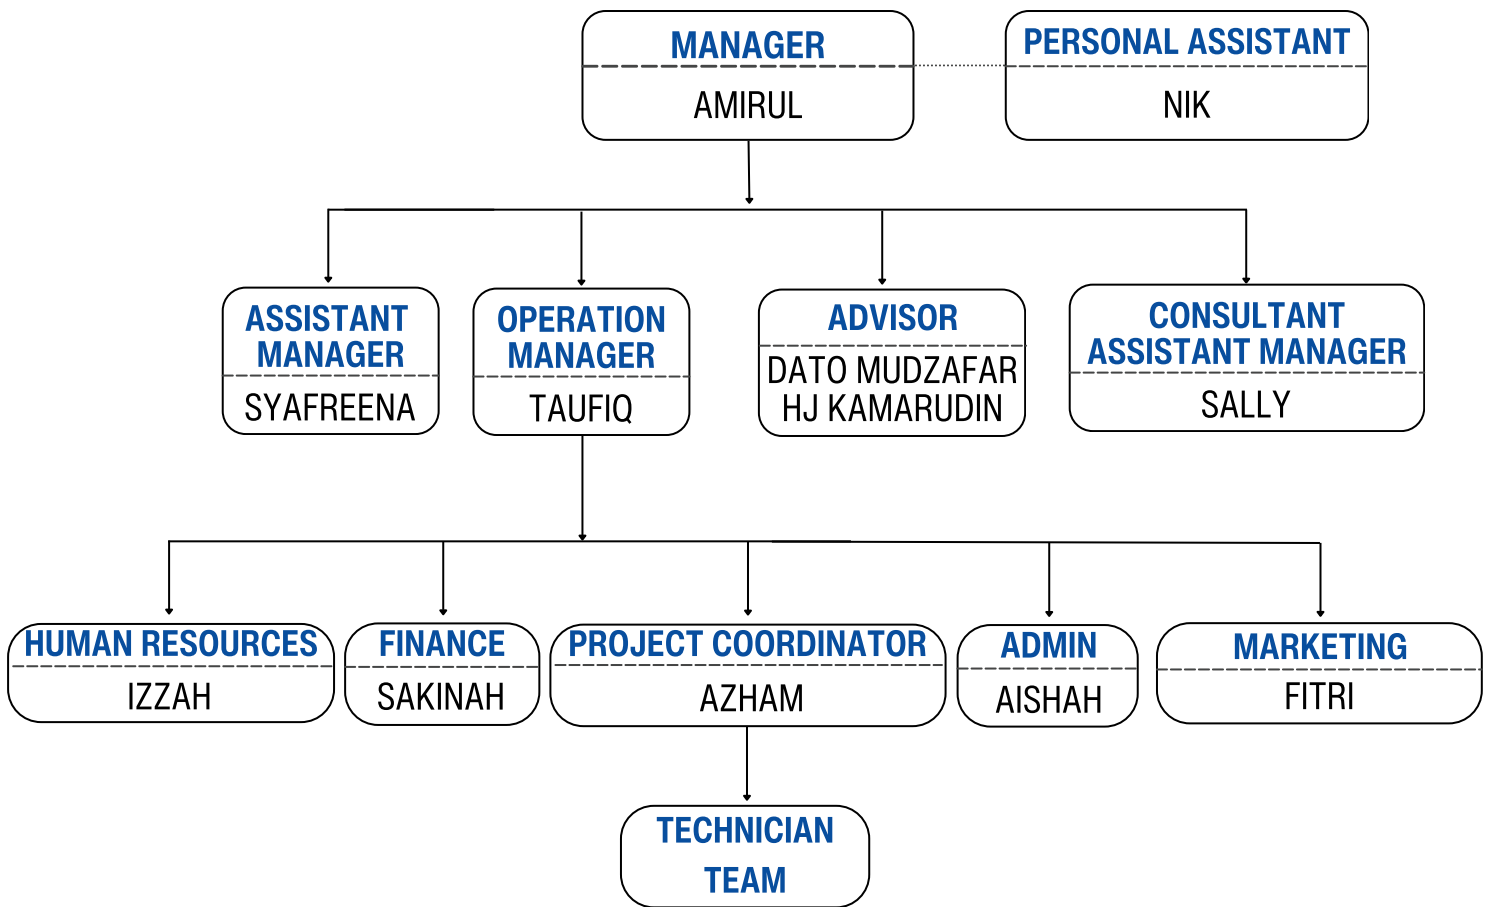

To be one of Malaysia's most trusted and preferred fire protection service providers delivering safety, reliability, and long-term value to every client we serve.

MISSION

To deliver reliable fire protection services that save lives, protect property, and ensure compliance – with fast response, quality work, and trusted local expertise.

TUAN / PUAN,

PENGESAHAN PENDAFTARAN SEBAGAI PANEL KONTRAKTOR DI SYARIKAT PERUMAHAN NEGARA BERHAD (SPNB)

Sukacita dimaklumkan bahawa permohonan tuan/puan terhadap perkara di atas telah diluluskan. Berikut adalah maklumat berkaitan pendaftaran tersebut untuk makluman dan rujukan tuan/puan:

NO. PENDAFTARAN	: SPNB/P/CON09572
PENGGHUSUSAN PENDAFTARAN	: KONTRAKTOR
GREDE	: G5

Untuk makluman tuan/puan, sebarang pemberian kerja oleh SPNB adalah tertakluk kepada syarat-syarat dan peraturan yang telah ditetapkan oleh Kementerian Kewangan Malaysia dan pengurusan SPNB.

Sehubungan dengan itu, pihak SPNB akan menghubungi syarikat/firma tuan/puan sekiranya terdapat keperluan untuk mendapatkan apa-apa perkhidmatan yang bersesuaian dengan pengkhususan bidang pendaftaran syarikat/firma.

Sila ambil perhatian bahawa tuan dikehendaki mengemaskini pendaftaran sebagai panel dengan SPNB pada bulan *Februari* setiap tahun.

Untuk sebarang pertanyaan lanjut, sila hubungi kami di talian **03-7849 2000**

Sekian, terima kasih.

OUR PRODUCTS

OUR PRODUCTS *(Coming Soon)*

Visual Artificial Intelligence Addressable Fire Alarm Control Panel SmartEye H5800

The SmartEye H5800 is an advanced fire alarm system that combines artificial intelligence with visual detection technology. It reduces false alarms, speeds up fire detection, and integrates alarm, voice evacuation, intercom, and cloud-based control in one panel.

This system integrates multiple functions in a single panel, including fire alarm monitoring, voice evacuation, intercom, and cloud-based remote management.

Key Benefits

- **Fewer False Alarms** : AI image and sensor fusion greatly reduce unnecessary alerts.
- **User-Friendly** : Simple two-wire design, touch-screen control, and minimal buttons.
- **Compatible & Expandable** : Works with existing Orena systems and easily scales with facility growth.
- **Smart Integration** : Combines alarm, voice broadcasting, emergency lighting, and IoT connectivity.
- **Flexible Networking** : Supports wired and wireless options including PLC, Ethernet, WiFi6, and 5G.
- **Cost-Effective** : Saves labor, space, and installation costs.
- **Privacy-Safe** : Cameras only activate during alarms.

Applications

Ideal for high-value or critical facilities requiring 24/7 monitoring such as airports, metros, substations, industrial parks, power distribution rooms, and petrochemical sites.

OUR PRODUCTS

We supply and install complete Fire Alarm Systems for residential, commercial, and industrial buildings. Our solutions are designed for reliable fire detection and early warning. Our range includes:

NO.	ITEM NAME	IMAGE
1	Conventional Smoke Detector (9-32Vdc, 2 wire non-polarity, advanced MCU expert algorithm firmware, w/o base)	
2	Conventional Heat Detector (ROR&FT) (9-32Vdc, 2-wire non-polarity, Rate of Rise detection responds to greater than 15°F/min, Fixed Temperature rating: 135°F, advanced MCU expert algorithm firmware, w/o base)	
3	Conventional Smoke & Heat Multi-sensor Combination Detector (9-32Vdc, 2-wire non-polarity, advanced MCU expert algorithm firmware, w/o base)	
4	Detector Base (For conventional detectors OT811/812/813, diameter 100mm)	
5	Conventional Fire Sounder Strobe (24Vdc operated, 2-wire)	

OUR PRODUCTS

We supply and install complete Fire Alarm Systems for residential, commercial, and industrial buildings. Our solutions are designed for reliable fire detection and early warning. Our range includes:

NO.	ITEM NAME	IMAGE
6	Conventional Fire Extinguishing Control Panel (4 detection zone, 1 area fire fighting output, LED display delay timer, manual/auto-matic/enable keys for operating, manual release/hold button, fire/fault/extract relay output, gas low pressure detection, w/o battery)	
7	Stand-Alone Photoelectric Smoke Alarm (9V battery operated, test button, auto reset, smoke ASIC inside)	
8	Addressable Photoelectric Smoke Detector (24Vdc, 2-wire non-polarity, micro-processor inside with expert algorithm software, compatible with Notifer 751/851, w/ base)	
9	Addressable Photoelectric Smoke Detector (24Vdc, 2-wire non-polarity, micro-processor inside with expert algorithm software, compatible with Notifer 751/851, w/ base)	
10	Addressable Photoelectric Smoke Detector (24Vdc, 2-wire non-polarity, micro-processor inside with expert algorithm software, compatible with Johnson Control 2951C, w/ base)	

OUR PRODUCTS

We supply and install complete Fire Alarm Systems for residential, commercial, and industrial buildings. Our solutions are designed for reliable fire detection and early warning. Our range includes:

NO.	ITEM NAME	IMAGE
11	Addressable Photoelectric Smoke Detector (24Vdc, 2-wire non-polarity, micro-processor inside with expert algorithm software, compatible with Protectwell PD300DP, w/ base)	
12	Addressable Photoelectric Smoke Detector (24Vdc, 2-wire non-polarity, micro-processor inside with expert algorithm software, compatible with Honeywell: IDP-PHOTO-IV, w/ base)	
13	Conventional Fire Alarm Panel (4 zone, fire relay, fault relay and alarm sounder output, built-in battery charger, w/o battery)	
14	2-in-1 Smoke & Heat Fire Detector Tester (Smoke is generated by the special incense sticks or regular cigarettes)	
15	Conventional System Demo Case (A smallest conventional fire alarm system, consisting of ODH02 fire alarm control panel, OT811R smoke detector, OT812R heat detector, OT813R multi-sensor detector, SL06 remote LED indicator, OA306 manual call point and OS109 sounder strobe, used for product display and system function demonstration)	

OUR PRODUCTS

We supply and install all types of Fire Extinguishers for residential, commercial, and industrial premises. Our range includes:

- ABC Dry Powder Fire Extinguishers - for common fire risks
- Carbon Dioxide (CO₂) Fire Extinguishers - for electrical and flammable liquid fires
- Foam Fire Extinguishers - for flammable liquids and solid materials
- Water Fire Extinguishers - for Class A fires such as paper, wood, and fabric
- Wheeled Fire Extinguishers - for factories, warehouses, and heavy-duty applications

All extinguishers are BOMBA-approved, easy to operate, and available in various sizes. We also provide installation, servicing, and maintenance to ensure your fire safety system is always ready for use.

OUR PRODUCTS

We supply and install complete Fire Alarm Systems for residential, commercial, and industrial buildings. Our solutions are designed for reliable fire detection and early warning.

Our range includes:

- Fire Alarm Control Panels - conventional & addressable types
- Smoke & Heat Detectors - fast response to different fire risks
- Manual Call Points (MCP) - easy activation during emergency
- Alarm Bells, Sounders & Strobe Lights - clear audible and visual alerts
- Accessories & Cabling - for full system integration

All systems are BOMBA-compliant and installed by our competent team. We also provide testing, commissioning, and maintenance to ensure full system reliability

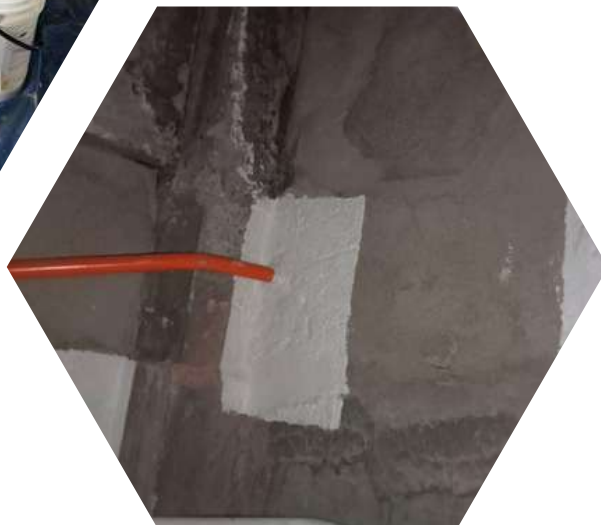

OUR PRODUCTS

We supply and install Passive Fire Protection solutions to help contain fire, delay its spread, and provide safe evacuation time during an emergency.

Our range includes:

- Fire Rated Doors - certified doors designed to withstand fire and smoke
- Fireproof Paint & Coatings - protects structural steel and building materials
- Fire Stopping & Sealing Systems - for cable, duct, and wall penetrations
- Fire Curtains & Smoke Barriers - controls smoke movement and fire spread
- Fireproof Boards & Partitions - for added compartmentalization and protection

All products are BOMBA-approved and installed according to safety standards. We also provide inspection and maintenance to ensure long-term performance.

OUR SERVICES

OUR SERVICES

How our services work:

We follow a systematic and professional approach to ensure smooth and effective service delivery:

CONTACT OUR SALES TEAM

Reach out to our team via call, WhatsApp, or email to discuss your fire protection needs.

SITE VISIT & ASSESSMENT

We schedule a free site visit to inspect your premises and identify the best solution.

QUOTATION & CONFIRMATION

Receive a detailed quotation based on your site condition and requirements. Confirm to proceed.

SERVICE EXECUTION

Our team performs the work as scheduled—professionally, safely, and in full compliance.

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

OUR SERVICES

ACTIVE FIRE

PROTECTION

ACTIVE FIRE PROTECTION

Active Fire Protection (AFP) refers to a range of systems and equipment that are designed to actively respond during fire incidents. Unlike passive protection, AFP solutions are dynamic in nature – they detect, activate, and suppress fires through mechanical, electrical, or human intervention.

These systems are essential in ensuring:

- Early detection and warning for immediate response.
- Effective suppression and control to minimize risk and damage.
- Safe evacuation through guided escape routes and emergency systems.

At Fire Infinity Engineering Services, we deliver comprehensive engineering solutions for Active Fire Protection systems. Our expertise covers system design, integration, installation, testing, commissioning, and maintenance.

All systems deployed are sourced from reputable manufacturers with BOMBA approvals, ensuring compliance with local and international standards including NFPA and MS requirements. By combining certified products with our technical know-how, we provide clients with solutions that are safe, reliable, and fully compliant.

Our competent team of engineers and technicians ensures each project is executed with precision – from initial consultation and authority liaison, to project delivery and ongoing maintenance.

With this approach, Fire Infinity Engineering Services positions itself as a trusted fire protection partner, safeguarding people, assets, and business continuity through professional Active Fire Protection solutions.

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

Active Fire Protection (AFP) - Our Scope of Services

Fire Infinity Engineering Services provides a complete range of Active Fire Protection solutions, covering design, installation, testing, commissioning, and maintenance. Each system is engineered to meet authority requirements ensuring safety and reliability.

Fire Alarm System

Conventional And Addressable solution for early warning

Gas Suppression System

FM200, CO₂, and clean agent systems for mission-critical areas

Fire Sprinkler System

Engineered suppression system for commercial and industrial

Portable Fire Extinguishers

Supply, servicing, and hydrostatic testing.

Fire Hose Reel System & Hydrant System

First aid firefighting system

Emergency Lighting & Exit Signage

Essential life safety systems to support evacuation

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

OUR SERVICES

PASSIVE FIRE

PROTECTION

PASSIVE FIRE PROTECTION

At Fire Infinity Engineering Services, our Passive Fire Protection solutions are designed to contain fire, prevent the spread of smoke, and protect structural integrity of buildings during emergencies. Unlike active systems, PFP does not require activation - it works continuously as a built-in safeguard.

We deliver solutions that comply with local fire authority approvals and international standards, ensuring maximum safety and long-term protection for your facilities.

Our Passive Fire Protection Scope Includes:

- Fire-Rated Doors & Partitions - Providing compartmentation to prevent fire spread.
- Smoke & Fire Curtains - Containing smoke and fire in designated zones.
- Fire & Smoke Dampers - Protecting HVAC systems from fire/smoke migration.
- Fire Stopping Systems - Sealing penetrations around cables, pipes, and ducts.
- Fireproof Coatings - Intumescent and cementitious coatings for structural steel.
- Cable & Duct Sealing Systems - Maintaining fire resistance in service routes.

With our professional team and collaboration with approved manufacturers, we ensure that every system is properly designed, installed, and tested to meet the strictest safety requirements.

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

Passive Fire Protection (PFP) - Our Scope of Services

Fire Infinity Engineering Services provides comprehensive Passive Fire Protection solutions to reduce fire risks, protect assets, enhance building resilience, and ensure long-term compliance with safety standards.

Fire-Rated Doors & Partitions

Providing compartmentation to prevent fire spread

Fire Stopping Systems

Sealing penetrations around cables, pipes, and ducts

Smoke & Fire Curtains

Containing smoke and fire in designated zones

Fireproof Coatings

Intumescent and cementitious coatings for structural steel

Fire & Smoke Dampers

Protecting HVAC systems from fire/smoke migration

Cable & Duct Sealing Systems

Maintaining fire resistance in service routes

OUR SERVICES SERVICING, MAINTENANCE & RECTIFICATION

SERVICE & MAINTENANCE ACTIVITIES

We offer comprehensive maintenance and servicing packages on a monthly, quarterly, and annual basis to keep fire protection systems in optimal working condition and fully compliant with BOMBA regulations.

Regular servicing allows early detection of faults, reduces the risk of system failure, and ensures all components operate effectively during an emergency. The scope includes inspection, testing, cleaning, and calibration of systems such as fire alarms, CO₂ suppression systems, hydrants, hose reels, and emergency/exit lighting – for commercial buildings, industrial facilities, retail outlets, warehouses, and high-risk premises.

A detailed service report is issued upon completion, documenting system status, findings, and any recommended corrective actions to maintain operational readiness.

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

SERVICE & MAINTENANCE ACTIVITIES

SERVICE & MAINTENANCE ACTIVITIES

We provide comprehensive maintenance solutions for fire extinguishers and CO₂ suppression systems to ensure reliability, compliance, and safety. Our scope of work includes:

- Inspection, testing, and refilling of fire extinguishers to guarantee full functionality in case of emergency.
- Hydrostatic testing of CO₂ cylinders to verify cylinder strength, detect defects, and certify safety in accordance with local standards.
- Pressure and leakage checks to maintain equipment integrity.
- Tagging, certification, and compliance documentation for audit and regulatory requirements.

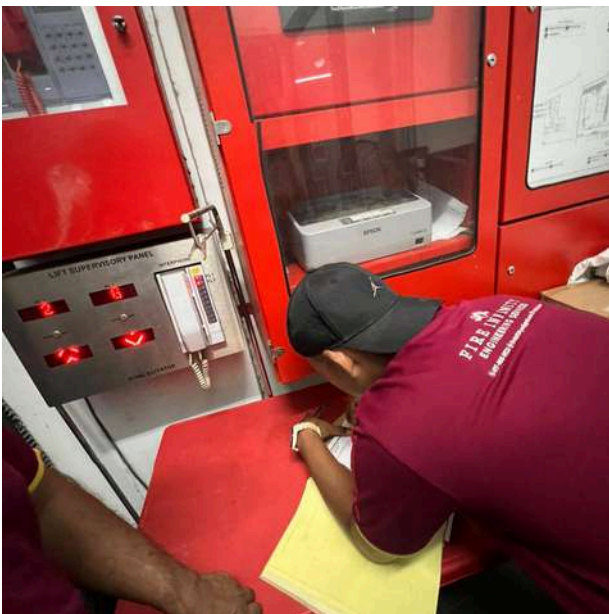

By combining regular servicing with professional hydrotesting, we help ensure that all fire protection equipment remains safe, compliant, and always ready for use.

FIRE INFINITY ENGINEERING SERVICES

Your Safety Is Our Priority

SERVICE & MAINTENANCE ACTIVITIES

RECTIFICATION ACTIVITIES

Rectification activities involve the repair, replacement, or upgrading of fire protection system components to restore full functionality and ensure compliance with BOMBA regulations. These works address issues identified during inspections, maintenance servicing, or system testing.

Our rectification scope includes replacing faulty devices, repairing wiring and control panels, upgrading outdated equipment, and resolving any deficiencies noted in BOMBA inspection reports. All rectification works are carried out to meet the latest safety standards, ensuring the system performs effectively during an emergency.

A comprehensive completion report is provided, detailing the work carried out, test results, and compliance status.
