

Transforming Digital Workplaces. Building a Sustainable Future

CHN delivers Enterprise Mobility, AI-powered digital workplace solutions, and ESG initiatives that empower organisations to work smarter, enhance security, and create lasting business impact.

THE CHALLENGES BUSINESS FACE

High IT Capital Costs

Large upfront investments strain cash flow and limit agility

Complex Device Management

Managing devices, apps and users across locations is difficult

Cybersecurity Risks

Data leaks and cyber threats endanger business and compliance

AI Adoption Challenges

Lack of the right tools and skills to unlock AI potential

ESG & Compliance Pressure

Rising expectations for transparency, sustainability and accurate reporting

OUR SOLUTIONS - ONE UNIFIED PLATFORM

Enterprise Mobility as a Service (EMaaS)

Subscription-based workforce technology covering procurement, deployment, management and support

AI-Powered Digital Workplace

Automate processes, enhance decision-making and improve productivity across the organisation

Device Lifecycle Management

End-to-end lifecycle management from onboarding to refresh, repair and secure disposal

ESG Carbon Intelligence

Track carbon impact from device usage and drive measurable sustainability results
